Summary

With over 5 years of web/UI development experience, I excel in crafting exceptional websites. Renowned as a reliable team player, I meet project goals proficiently. My skills encompass React.js, Tailwind CSS, WebSocket, Node.js, Mongoose, MongoDB, Express.js, Handlebars.js, Bootstrap, jQuery, HTML, CSS, JavaScript, and WordPress. Recognized for a strong work ethic, I am committed to excellence, consistently delivering impressive results. Continuously updating my skills, I stay current with the latest technologies. Eager to contribute expertise and versatility to dynamic web projects.

EXPERIENCE

JUN 2023- DEC 2023

Netherlands

Full Stack Developer at Ironhack

- Built an interactive live quiz using Tailwind CSS, React, and Socket.io.
- Led the creation of a B2B Grocery POS System with user-friendly interfaces.
- Developed an engaging word-guessing game using CSS, JavaScript, and HTML5.

Apr 2021- Apr 2022

Utrecht | Netherlands

FREELANCER at Sakshan store

- I created an online retail platform for Indian groceries using WordPress and WooCommerce. Responsibilities included managing orders, stock, and the delivery system, ensuring a seamless and efficient business operation.

Mar 2015 - Sep 2017

Chennai | India

TECHNOLOGY SUPPORT SPECIALIST at Infosys Ltd

ATT Project: Apr 2015 - Jan 2016:

- Crafted HTML presentations with HTML5, CSS3, jQuery, and JavaScript.
- Enhanced functionality and user experience using Bootstrap and Angular.js.

GSK Project: Feb 2016 - Sep 2017:

- Developed HTML presentations with HTML5, CSS3, jQuery, and JavaScript.
- Used Adobe CQ5 and CMS tools for efficient content management.
- Maintained responsive design with Bootstrap for optimal user experience.

Jun 2014 - Mar 2015

Chennai | TamilNadu

UI DEVELOPER at Sybrant Technology pvt ltd

UI Developer at Sybrant Technology | Chennai, Tamil Nadu

- Designed and implemented website skins for wireframes and PSDs.
- Focused on full responsiveness for a seamless user experience.
- Addressed bugs and enhanced design using HTML, CSS, jQuery, Bootstrap.
- Used PHP, MySQL, and JavaScript for a robust and dynamic website.

May 2013 - June 2014

Chennai | TamilNadu

EXECUTIVE WEB RESEARCHER at Mobius knowledge services pvt ltd

I specialized in collecting and transforming internet data into valuable information for clients (Tom Tom). This involved comprehensive web research, meticulous data extraction, and the conversion of raw data into meaningful insights. My role required a keen eye for detail and precision, contributing to the success of various research projects.

PROJECTS

- Interactive Live Quiz Board (Nov 2023 - Dec 2023):
 - Engaged in the development of an interactive live quiz using Tailwind CSS, React, and Socket.io.
 - Contributed to creating live quiz rooms, enabling real-time participation and competition among users.
 - Ensured a responsive design for a seamless experience across various devices.
 - Applied skills in JSON Web Token (JWT), Mailjet, bcrypt, MongoDB, Express.js, Node.js, and HTML5.
- B2B Grocery POS System (Sep 2023 - Oct 2023):
 - Led the creation of a Point of Sale (POS) system tailored for B2B use, targeting grocery stores.
 - Provided a user-friendly interface for managing products, shopping carts, and payment processing.
 - Implemented distinct user roles (Admin, Cashier, Customer) with specific privileges for enhanced security. Utilized Mongoose Web Server, Handlebars.js, MongoDB, Express.js, Node.js, Bootstrap, CSS, JavaScript, and HTML5.
- Chic & Eggs Game (Jul 2023 - Aug 2023):
 - Developed an engaging word-guessing game challenging players through different levels.
 - Created a live URL for users to experience the game's interactive features.
 - Utilized Cascading Style Sheets (CSS), JavaScript, and HTML5 to build the game.
- Sakshan Store (Apr 2021 - Apr 2022)
- ATT- 1 Project
- GSK-15+ Project
- Ibuyfresh
- Bigbasket
- Tom Tom
